Band Ready: Family Essentials

The website and Family Portal are the source of truth. This page is a paper fallback; forms should still be completed online.

1. Connect your family

Go to **ashleybands.com/portal**. Sign in or request access. Confirm the student, parent/guardian names, email addresses, and phone numbers.

How grades work

County weighting is **60% performance and 40% practice**. The ensemble is assessed at least weekly in an integrated way: class or individual performance, written work, or another appropriate assessment. Regular practice and engaged class work prepare students for both assessments and concerts.

2. Day 1 necessities

Bring a personal instrument or complete the county instrument agreement in the portal; a black one-inch binder for music and handouts; and a named band pencil that stays in the binder.

Absences and performances

Communicate as soon as a conflict or illness is known - months ahead or that morning. With communication, we can decide what is appropriate. Uncommunicated or avoidable missed performances may require an individual replacement project.

3. Calendar

The live band calendar is official. Open **ashleybands.com/calendar** and subscribe so updates appear automatically.

Communication

Families: email **robert.parker@nhcs.net**.
Students: Google Chat for now. Changes during the Microsoft transition will be announced.
Band website: **ashleybands.com**. MyMusicOffice has retired.

4. Clothing order

The six-item bulk collection closes **Friday, August 28**. Pay in the portal. Prices include 7% sales tax and no individual shipping. Financial hardship never excludes a student.

Complete the challenge

Scan the code, complete all six stops, then show a student helper. Every finisher may choose a sticker; optional individually wrapped candy is available while supplies last.

Student Helper Guide

Your job is to keep families moving, help with simple access problems, and send questions to Mr. Parker only when his judgment is actually needed.

Station	What to do	When to get Mr. Parker
Portal help 2 students	Invite families to scan the QR code. Help them find Sign In or Request Access, choose their student, and locate the instrument and clothing forms. Let the family type private information themselves. Paper is a fallback, not a replacement form.	Student is missing; guardian cannot be matched; repeated login failure; family has a private or unusual circumstance.
Prize table 1-2 students	Ask the family to show the completed challenge screen. Give every finisher one sticker. Offer one individually wrapped candy while supplies last. Be welcoming - this is a celebration, not an inspection.	A family disputes completion, needs an accommodation, or raises an allergy/safety concern.

Simple family flow

1. Scan the entrance QR. 2. Complete the six stops. 3. Ask a helper only if needed. 4. Show completion at the prize table. 5. Say hello to Mr. Parker if desired.

Helper boundaries

Do not write down passwords, sign-in codes, addresses, phone numbers, medical information, or payment details. Do not promise an instrument assignment, change a student record, interpret a special attendance situation, or handle money. Bring those questions to Mr. Parker.

Opening checklist

Place the large sign at the entrance. Put the four small signs around the room. Stock stickers and optional wrapped candy. Keep a few essentials sheets visible. Open the portal on one helper device only for demonstration - families should use their own device for sign-in and payment.
